

ALUMINIUM

Closure by cover lid

Wide opening

Cut edge with body bead

One-piece cylindrical body in pure-aluminium "1050A" (mini 99,5%)

100% recyclable Aluminium

Storage of raw materials and compounds

- liquid products
- viscous products

BOXES with Cover lid

Manufactured in 99,5 % pure aluminium, the cover lid BOXES range offers a perfect protection against perforation and chocks, as well as chemical attack.

It is a total barrier to light. Its wide opening is ideal for the products difficult to pour.

Main uses

Fragrance and Aromas: to pack concrete (fresh product), resinoids (dry products) and all sorts of powders.

Can be used for Beauty and Well being products (candles, massage waxes...).

BOXES with Cover lid

Light and resistant

- 99,5% pure Aluminium.
- Excellent mechanical resistance : against shocks, perforation...
- Chemical resistance directly ensured by Aluminium or, if necessary, thanks to a food grade epoxy-phenolic coating.
- Protection against gas and light.
- Lightness close to plastic materials.
- keeps the product fresh during the storage.
The aluminium box is easy to warm in hot water.

Tight

- Seamless structure.

User friendly

- Large opening facilitates pouring.

Nice looking

- Plain Aluminium finish.

Recyclable

- High value of Aluminium scrap.
- Boxes is made of 100% Aluminium.

Note: user is responsible for checking the compatibility of its product with the Tournaire packaging system, see our general sales terms.

A range from 125 to 12500 ml

Capacity per boxes (ml)	Ø body (mm)	Height with cover lid (mm)	Height without lid (mm)	Weight (kg)	Quantity per box	Quantity per palett
125	59	50	30	0,025	480	-
